

MyAQ Search for Sections:

The Search for Sections functionality is available to all students, faculty, employees and guests. The screen allows you to search for available courses based on a variety of selection criteria. The only required entry is the Term. If only this category is used, the list of courses will include any course offered during the specified semester and may take as long as 30 seconds to display.

Clicking on the Help button in the upper right corner will open a new window with search examples.

Once all search criteria are entered, click Submit at the bottom of the screen and a list of classes that match the criteria will be generated. This may take a while, so please be patient. The more specific the search the quicker the list of results will be available. The list of possible courses can be printed using the print command in your internet browser.

For example:

A search for all Spring Semester '09 Computer Infor Sys (Computer Information Systems) classes held between 9 a.m. and 11 a.m. will return the following results. To access additional information about the course, click on the Section Name and Title link for the course.
