

A MESSAGE FROM EAST PARIS INTERNAL MEDICINE ASSOCIATES, P.C.

East Paris Internal Medicine Associates (EPIM) has been providing care to patients in the Grand Rapids area since 1978. We have been in our current location (1000 East Paris Avenue, SE, Suite 260, Grand Rapids, MI 49546) for many years and are proud of our service to the community.

EPIM physicians are all internal medicine specialists assisted by a staff of physician assistants, medical assistants, lab technicians, radiology technologists, and many other para-professionals who are dedicated to the health and well-being of the patients we serve. As internists we specialize in providing non-surgical solutions to problems in all organ systems to patients 18 years and older. We also have an extensive referral base for a wide range of medical and surgical specialists to assist in providing care when necessary.

Our group is excited about providing the care for the Aquinas College Health Center. There will be a group of five providers working on site at the College to staff the Health Center, including two Aquinas alumni who have been working at the center for many years.

In addition to providing care for the unexpected illness or injury for students, we are able to provide many other health care services including preventive exams, gynecological exams, travel screenings, allergy injections, immunizations, laboratory services, and basic radiology services.

As a practice, we participate in many insurance plans including Blue Cross Blue Shield (except Blue Care Network), Priority Health Plans (except PH Medicaid), Aetna, Cigna, United Healthcare and many others. We have an experienced billing staff that is able to assist with coverage and billing issues for services provided. As a physician practice we will be collecting co-pays and other non-covered fees at the time of service. We will bill the student's healthcare insurance whenever possible for covered services.

We look forward to serving the students through the Health Center and providing health care services to the Aquinas College campus community.
